What is literary literature. What are the classifications of literature. Example of literary works fiction. What are the examples of literary works.

A literary genre is a category of literary composition. Genres may be determined by literary technique, tone, content. The five major genres in literature are: Poetry, Drama, Prose, Fiction, Non-Fiction. Genres are often divided into subgenres.Students read a wide range of print and nonprint texts to build an understanding of texts, of themselves, and of the cultures of the United States and the world; to acquire new information; to respond to the needs and demands of society and the workplace; and for personal fulfillment. Among these texts are fiction and nonfiction, classic and contemporary works. (NCTE)Students read a wide range of literature from many periods in many genres to build an understanding of the many dimensions (e.g., philosophical, ethical, aesthetic) of human experience. (NCTE) This breakout escape room is a fun way for students to practice their skills with identifying genres. Given short passages, students must identify the correct genre of the story.
