PHONETIC ALPHABET

The International Radiotelephony Spelling Alphabet, commonly known as the ICAO phonetic alphabet, sometimes called the NATO alphabet or spelling alphabet and the ITU radiotelephonic or phonetic alphabet.

A - ALFA	M - MIKE	Y - YANKEE
B - BRAVO	N - NOVEMBER	Z - ZULLU
C - CHARLIE	O - OSCAR	1 - WUN
D - DELTA	P - PAPA	2 - TOO
E - ECHO	Q - QUEBEC	3 - TREE
F - FOXTROT	R - ROMEO	4 - FOW-ER
G - GOLF	S - SIERRA	5 - FIFE
H - HOTEL	T - TANGO	6 - SIX
I - INDIA	U - UNIFORM	7 - SEV-EN
J - JULIETT	V - VICTOR	8 - AIT
K - KILO	W - WHISKEY	9 - NIN-ER
L - LIMA	X - XRAY	0 - ZEE-RO

Alphabet letters writing practice sheets. Alphabet letters writing worksheets pdf. Alphabet letters writing practice pdf. Alphabet letters writing worksheets. Alphabet letters writing practice. Small alphabet letters writing practice. Alphabet letters writing practice worksheets. Alphabet letters writing tracing.

1 Use a piece of lined paper. Lined paper will help you write each letter evenly and uniformly. It will also help to distinguish the difference in size of the upper case and the lower case letters. (5) Lined paper is especially useful when learning how to write the alphabet in cursive, as the loops and dashes of cursive can be difficult to complete without the use of lines as a guide. When learning how to write cursive letters, start with lowercase letters first, followed by uppercase letters. Lowercase letters are more accessible and will give you a beginner's sense of how to write cursive letters. 2 Draw the letter a. Start with downward slope, making a lowercase O shape. At the top left side of the O, draw a line sloping downward and curving out at the end. This is b. 3 Make the letter b. Make an upward slope and then loop it around as you make a downward slope. Continue the downward slope to make a lowercase U shape. End the U with a small curve to the right side. This is c. 4 Practice the letter c. Start with a curve in the center of the page. Slope downward in a circle and then end the slope with a long slope towards the right side of the paper. The slope can move upward at the end of the letter. This is d. 5 Try the letter d. Make a round, lowercase O shape. Then, draw a vertical line from the top of the page down to meet the right side of the O. Curve the slope out at the bottom towards the right side of the paper. This is e. 6 Make the letter e. Start with a slope upward to the middle line of the paper. Make a loop and then end the letter with a long slope towards the right of the paper. This is f. 7 Do the letter f. This is one of the more challenging letters, so don't be afraid to practice it several times. Start with a long slope upward, forming the beginning of a lowercase b. Bring the bottom of the loop downward to form another loop underneath the lowest line on the paper. Draw the end of the loop towards the right side of the paper in an upward curve. This is g. 8 Practice the letter g. Start with a round O shape. At the bottom right side of the O, add a slope that moves downward, underneath the last line of the paper and then curves back upward. This is h. 9 Do the letter h. Make an upward slope to form the beginning of a lowercase b, with a long slope that loops and then draws downward. At the end of the downward vertical line, add an upside down lowercase u shape. This is i. 10 Try the letter i. Make an upward slope to the middle line in the paper, then bring the slope downward from the center to the bottom right of the paper. Place a dot over the middle point, where the two lines meet. This is j. 11 Make the letter j. Draw an upward slope to the middle line of the paper. Then, bring the slope downward, past the last line of the paper. Loop the bottom of the slope and bring it upwards, towards the right of the paper. This is k. 12 Do the letter k. Do an upward slope to form the beginning of a lowercase b, with a long slope that loops and then draws downward. At the end of the downward vertical line, slope back up to form a lowercase O shape. Draw a line from the bottom of the O shape downward to the right of the paper. This is l. 13 Draw the letter l. Draw a slanted upward line and then loop down to create a downward line that curves to the right of the paper. This is m. 14 Do the letter m. Make a small, narrow, upside down lowercase u. At the end of the upside down u, slope back up to create another upside down u. End with one more upside down u. This is n. 15 Practice the letter n. Create a small, narrow, upside down lowercase u. At the end of the upside down u, slope back up to create another upside down u. This is o. 16 Make the letter o. Make a round, sloped circle. At the top of the circle, draw a curve upward to the right of the paper. This is p. 17 Try the letter p. Start from the bottom line of the page. Make a small slope upward and then slope downward to make a loop underneath the bottom line of the page. Draw a slope upward to form a lowercase O shape. End with a slope from the bottom of the O shape that curves upward to the right side of the page. This is q. 18 Do the letter q. Make a round O shape, similar to how you drew the lowercase letter a in cursive. On the right side of the O shape, draw a line downward and form a loop underneath the last line on the page. Then, draw a line from the top of the loop to the middle line of the page. This is r. 19 Make the letter r. Start with an upward slope to the middle line of the page. Make a small vertical line to the right from the top of the upward slope. Curve down from the end of the slope to the bottom line. This is s. 20 Try the letter s. Make a curved line upwards to the middle of the paper. At the top of the curved line, make a rounded line downwards until it meets the bottom of the first line. End with a curved line upwards. This is t. 21 Do the letter t. Make a vertical line upward and then draw downward over the same vertical line. End the downward vertical line by curving upward to the right of the page. Draw a small horizontal line in the middle of the vertical line. This is u. 22 Practice the letter u. Start with an upward slope from the bottom line to the middle line. Make a curve downward and then make another curve upward. This is v. 23 Make the letter v. Start with a slope upward from the bottom line to the middle line and then make a curve downward to form a narrow u shape. Finish with a small curve to the right of the page. This is w. 24 Try the letter w. Create two u's, joined together. Make an upward slope from the bottom line to the middle line. Then, make a curve downward and then another curve upward. Repeat this again and end with a vertical curve to the right of the page. This is x. 25 Do the letter x. Create a loose n shape. Draw a curve from the bottom line to the middle line and then up again to the middle line. Finish with a slanted vertical line from the right side of the page to the left side of the page, across the middle of the n shape. This is y. 26 Make the letter y. Start with a slope upward from the bottom line to the middle line. Then, curve back downward to create a loose n shape. At the end of the n, make a slope that curves downward and loops underneath the bottom line of the page. Finish by drawing the slope at the end of the loop upward to the right of the page. This is z. 27 Practice the letter z. A cursive z does not look like a printed z. Start with a slope from the bottom line to the middle line that forms a curve that is leaning to the right. At the end of the curve, make a curve that rises up and then slants downward, underneath the bottom line of the page. Make a loop underneath the bottom line and then finish with a curve upward towards the right of the page. This is z. Advertisement Preschool Independent Study Packet - Week 1 Preschool Independent Study Packet - Week 1 Week 1 of this independent study packet for preschoolers contains everything you need to keep young learners engaged on key skills, from practicing uppercase letters to learning two-dimensional shapes. Preschool Reading & Writing Sujatha Lalgudi has been writing and painting since her childhood. She regularly conducts story-telling sessions for children in schools and libraries to promote book reading. You can also find her books in these languages: Spanish, German, French, Italian, Portuguese, Polish, Russian, Dutch, Finnish, Ukrainian, Bulgarian, Greek, Japanese, Mandarin Chinese, Simplified Chinese, Romanian, Turkish, Croatian, Malay (Bahasa Melayu), Slovak, Czech, Estonian, Malayalam and Hindi. She holds a Masters Degree in Computers. After working for several years in the Hi-Tech Industry of Silicon Valley, she decided to pursue her passion for publishing books for children. An alphabet is a set of letters or symbols that we use to represent the basic speech sounds of a language in writing. This page looks at writing the English alphabet. You can read about pronouncing the English alphabet here. The English word "alphabet" comes from the Latin word "alphabetum". The Latin word "alphabetum" came from the first two letters of the Greek alphabet, "alpha" and "beta". Letters of the English Alphabet The English alphabet has 26 letters, starting with a and ending with z. Below you see the whole alphabet. a b c d e f g h i j k l m n o p q r s t u v w x y z The letters above are "small letters". But they can also be written as "large letters" - see below. The letters of the alphabet are also sometimes called "characters". Small and Large Letters We can write each letter of the English alphabet as a "small letter" (abc) or as a "large letter" (ABC). Large letters are also called "capital letters" or "capitals". Below you see the whole alphabet with small letters on the left and capitals on the right: a A b B c C d D e E f F g G h H i I j J k K l L m M n N o O p P q Q r R s S t T u U v V w W x X y Y z Z In informal English, we sometimes call capitals just "caps". Small letters are sometimes called "lower case" and large letters "upper case". This is because in the old days of printing, before computers, the metal blocks for setting type were kept in two different boxes or "cases": small letters in the bottom or lower case, large letters in the top or upper case. Font Styles Printed letters of the alphabet come in different styles or designs. Each style is called a "font". This page shows all 26 characters, as small and large letters, in 5 different styles. Each column displays a different font style, in this order: Serif: with serifs, or little projections, at the end of most strokes Fixed-width: like old typewriter lettering - each letter is about the same width, so "i" takes up the same space as "w" Sans-serif: with no serifs Cursive: like handwriting Fantasy: fancy, artistic Alphabetical Order The English alphabet starts with the letter a and finishes with the letter z. We always write the alphabet in the same order: a-b-c-d-e-f-g-h-i-j-k-l-m-n-o-p-q-r-s-t-u-v-w-x-y-z A-B-C-D-E-F-G-H-I-J-K-L-M-N-O-P-Q-R-S-T-U-V-W-X-Y-Z This order is called "alphabetical order". We often write lists in alphabetical order. For example, to write a list of countries in alphabetical order, we start with countries that begin with the letter A, then with countries that begin with B, and so on. For example: If more than one word begins with the letter A, we put them in order based on the second letter, and then the third letter, and so on: Algeria Argentina Belgium Benin Bermuda We use alphabetical order for many things, for example: dictionaries indexes of books telephone directories When you write any list, it is a good idea to use alphabetical order. This makes it easy for your reader to find a particular item in the list. English Alphabet Quiz
