# How to enter merge dragons cheat codes

Are there any cheats for merge dragons.

Join the Dragons! Default codes: ----- Submitted by: David K. Tips & Tricks: ----- There are two ways to move objects. You can drag them by pressing on them and dragging your finger around the screen. Or, you can tap to select them, then tap a blank space where you want to go. (Note that the second method does not work for objects like Life Essence, Coins, Treasure Chests, and other things that activate when you touch them.) \* You can drag and drop your dragons on the items you want to collect or destroy. For example, throw a dragon on a flower of life to make it collect Essence life. Or throw it on a Zomblin cave to destroy the cave. \* You can match things you may not expect. For example, you can match: Coins, Stone Bricks, Goal Stars, Dragon Stars, Dragon Gems and even Treasures! \* How do you get other dragon gems? Sometimes, when you do the missions of a level, a Purple Dragon Star will fall into the earth instead of a normal yellow star. You can touch them for Dragon Gems. But Dragon Stars is very rare. Up to 3 can fall at a time, but then they won't turn out again for a while. \* How do you get even more dragon gems? If you get Purple Dragon Stars in one level, don't touch them! Instead, leave them there. They will come in the reward menu to bring home, where you can then save and match them for a Magnificent dragon star. Tap this for a lot of Dragon Gems of various sizes. Match any of the dragon gems that you can level before touching them to collect them! \* Some things will be placed over time by other objects. For example, fruit trees occasionally grow fruit, which you can touch the tree. Or, top-level fruit trees will also cause life flower sprouts to grow nearby! Bushes, grass, dead trees, water... all these objects and others cultivate interesting things nearby. Dragon nails was out for a while and enjoys a large part of fanfare. The game is based around the simple premise of merging different objects in order to create unique new objects and the game implements this idea wonderfully. While the colorful bright theme of the game and optimized gameplay are enough to keep you hooked for days, there are some features that could use some spicing ups. In addition to this, some elements of the game can be too difficult to master for some people at the point where experience no longer feels fun. Enter: Join dragon cheating codes. With console commands and cheat codes, you can access features that are not enabled by default. In addition, these cheating codes blur a lot of bugs and greatly improve the gameplay all while giving the game a cool paint. From getting unique chest to a load of dragon gems boats, the options are endless once you enter the world of cheating codes. Join the dragons CheatsCodeDescriptionOC.ML949Mjnd This cheating code is used to get Dragon Gem Payout. INFORMATION You will get the bag of 400 dragon buds with the help of this code. T3-98NmDjn This cheating code is used to get the chest bonus of 960 dragon buds. You will get a bag of 250 dragon gems using this code. JN\_93MMINISTRATION This cheating code will give you a pile of 100 dragon gems. FR\_NaaFRR299 This code is used to get you a bonus pile of 160 dragon gems. AK\_8MqipQm This code will bring you a 3200 dragon gems cauldron. More Makes: Join Dragons Trailer Join Dragons is on Google Play! Read more: hyperurl.co/9vj4dn Gamerbraves Official website: gamerbraves.com/ FB Page -Here are the top 10 tips / tricks / tricks you need to know to combine dragons! .1. It is not necessary to use hearts rightlyâ € ¢ the hearts that you end up creating are indicated as a life essence. There is no need to use the life essence that is given immediately, as you combine them together is a more practical tactic. Remove a game of three of those articles and you will be equipped with a much more useful life orb. The spheres of life are Lot more effective when it comes to its healing properties. The fusion of the spheres of life also guarantees the strongest healing powers also! 2. A fusion of five objects is better than fusion of three gamezebo.com Â € ¢ ~ Â € ¢ you can practically match any object on which your eyes sit. Simple mergers using three objects can be worth doing sometimes, but five games are super long-term benefits. Combining three objects guarantee an object, while correspond to five objects will record with a bonus element for your efforts. This process does a better job to level your items at a fastest speed. Some of the items you can blend include coins, stone bricks, target stars, dragon stars, dragon gems, treasure crates etc. 3. Dragon collection / destroying gram games Â € ¢ ~ Â € ¢ The birth dragons take three eggs. When creating a dragon, the objects come from their creation. Dragons are fantastic for the healing of the casual pieces of dead land. So here is the process that results from Dragon Crafting Â € ¢ ~ \* Merge three eggs gives you a new dragon, which in turn gives you an object that can be used for more correspondents and so on. You can twice twice An object to quickly send a dragon to collect from it or simply destroy it, by the way. 4. Merge your dragons - if you join dragons, the upper level dragons you get more quick, being able to do more work and worth the Penalty more power than the dragon that helps you unlock more land. So it is worth joining three dragons to create an even more powerful dragon. While interacting with your field, you can also choose to perform a dragon fusion. Make sure only of Have three or more dragons ready for the whole process. Speaking of your field, make sure you use dragon eggs to help clarify the fog that afflicts your land and lend more space to it. 5. Create a correspondent Dead Land object And to GRAM games Â € ¢ ~ Â € ¢ By the way, you should try creating games with similar objects on the dead earth. That object from the dead terrain will be pulled over, which translates into that piece of dead and instantly healed land. Comment Quipagna 2 Â € ¢ ~ Â € ¢ ~ Â € ¢ If a star of the purple dragon falls, brings back to the field where you can unite with the others you have collected. This in turn will lead to creating a magnificent dragon star. If you choose to touch them immediately, though, you would like to drive dragon. 7. Some objects at the end will be born other beneficial goods that lead to more corresponding gram games Â € ¢ ~Â € ¢ ~Â € ¢ ~Â € ¢ some of the objects that end up creating tend to develop more objects over time. Fruit trees, grass, bushes, water and dead trees are the elements you should keep an eye on because all kinds of interesting goodies grow. For example, fruit trees usually generate fruit (tap on the tree to recover them). Extra articles you get come up to give more focal care to work with. 8. Yellow fall stars Â € ¢ ~ Â € ¢ For a better booty, you can join the yellow falling stars that appear after completing the missions. 9. Level prizes Â € ¢ ~ Â € ¢ The level premiums will sometimes have some of the elements that are left on the map at the end of the level. If you want a better chance of something that appears in the prize screen, eliminates the other elements. 10. Secret levels Â € ¢ ~ Â € ¢ There are secret levels hidden around the world map. Touch the area on unmarked objects to find them. Comment here Edit after version 3.3.0, this method can be extremely expensive in terms of time due to the need for 3 gold seeds to get the first Midas collection tree; Therefore it is recommended only if you have enough time and you don't need callighi (maybe a couple of visits would be needed only for all 3 seeds). Written by Shaked Yes, stone bricks have their living stones and gems have, well... super rare dragon stars. However, magic coins do not have a good source to get them pretty fast. What is the way to become rich quickly, can you ask? Look carefully at this image: Is it paradise? Is that Midas' garden? Did I cheat? I'm afraid the answer to all three is not, as is only ford 8 and someSo, in essence, this is what it must be done: find a stage with: a beautiful shape of decent size (rectangle or squarish, about 50-100 tiles). At least one level 3 Hill (Elwind Knoll), or a Cloudy Summit (preferably) or even the Misty Mountain (perfect). At least one dragon. Personally I find Fjord 8 the cheapest any other phase that responds to the requirements above is ok. After the stage is over (except for the statues Gaia, of course), delete absolutely everything except the Summit Hill / Cloudy / The Misty Mountain, and Dragon (I). If you have a cloudy summit or misty mountain, you can jump to (4). Farm the hill of any level as crazy, collect the topsoil, eliminate anything that is not a hill, and join 5 hills to the next level. Continue until you get a by-product of at least one Cloudy Summit. You can continue to do more if you want, but it's not necessary, yet potentially will do the fastest process. Sell the Cloudy Summit / The Misty Mountain for Clouds without stopping. Once the clouds were collected, touch them and make it rain. Eliminate any Sprout Life Flower that opens. The clouds behave in a way, which does not matter where you touch them, try to create a Rain Puddle / Life Flower Sprout in the most close title on the map. So try to touch the clouds in the middle of the map, and even when the shape of Rain Puddles, continue to rain the clouds in the same point. In the end you will have about 20 rain wells adjacent to each other, or a little less. Once the first of them turns into a mushroom, quickly join the rest at level 2. Then continue to collect and touch the clouds. Once one of the level 2 puddles is transformed into a mushroom, add all the puddles of rain and level 2 puddle and level 3 puddles that are formed to create 1-2 water units (level 4). Continue to create water, and put as much as possible on the map, preferably not near where the puddles are created. In order to put much more as possible, place the water in a diagonal form, which also means a single water unit (level 4) is adjacent to another. Eliminate any grass that opens, unless you want a built-in stone farm. When you're out of space, combine part of the water at the next level (5), and continue. The goal is to create 3 Golden Seeds. It will take time, but when it is done, all the hard work will be rewarded. Once the third Golden Seeds has been deposited, technically you can delete anything else on the map (except the dragon, otherwise it won't work), or continue to make water to spend your time, as it needs a little Time to grow in a golden sapling. Once the 3 sprouting Midas Trees grow from the Golden Seeds, unique in a golden sapling and harvest it for gold apples. Merge 5 to accelerate the process. Continue with apples level 2 and level 3. While joining, you will get rewards like magic coins and egg / tooth coffins. Touch them once you have them. Most likely they will contain Golden Seeds that you can then merge to create more Golden Trees that can be fused further. Of course, eliminate any water inside in order to make space yourself. Continue to create more egg hood, nest times and coins, etc. Of course, the Midas Ducks will help accelerate the work. Joining coins and get what your banking skills can hold. If you do not mind wasting a few glasses, leave without finishing the level, and can be visited again to fill your max gold deposit again! Every time you return the chalice cost increases by one, however. Maximum 7 cups. After version 2.0.0, where the generation of the cup is much slower, method can be extremely waste of glasses, unless the player has a great banking ability that would justify the sacrifice. sacrifice. sacrifice.
